08 September 202

Dear Parents and Carers,

We have enjoyed a very successful first week back, including high quality professional learning for colleagues at the start of the week and the opportunity to welcome our learners for the start of a new academic year from Wednesday.

As you are aware, in light of this week's extraordinary weather conditions for this time year, pupils were permitted to wear their summer uniform. The current forecast is for an imminent return to cooler temperatures. Our expectation, therefore, is for pupils to adhere to the winter uniform from Monday September 11.

Reminder:

School photographs will now be taken on 27 of September and not 8 September as previously planned.

Safety and Security:

Please be advised that, as of yet, the security gate for the entrance of the school has not been installed by the Local Authority.

We would, therefore, like to remind you that vehicles are not permitted to come into the school yard without prior arrangement.

Similarly, in order to maintain a safe environment around the school, we would like to remind you that it is prohibited to stop on the zig zag lines on or near the school gates. Should you wish to drop your child to school, you will need to do so in a safe area which will not pose a danger to other cars or pedestrians.

Update to parents on Reinforced Autoclaved Aerated Concrete (RAAC):

Please find attached a letter from the local authority in relation to inspection of reinforced autoclaved aerated concrete.

Yours sincerely

S M JONES

Headteacher
