

School Performance

At Key Stage 4 Cardiff High has consistently achieved the highest results in Wales across all indicators, substantially outperforming both family (similar schools) and national averages and also adding significant value for pupils from all starting points.

At KS5 the school delivers A Level only qualifications and enjoys similar academic success. In 2019, the last time results were based on traditional examinations, all of our Y13 leavers secured university or work places with significant numbers of Cardiff High students going on to Russell Group Universities.

A Level 2019	Cardiff High School	Family Average	Local Authority Average	Wales Average
3 A* to A Grades	27%	17%	20%	13%
